

# Project Handout

## Roberts/Frazell/Spindler Road Intersection Improvements FRA-CR28-5.16 (Roberts/Spindler), PID 120250

### Project Description:

The project proposes to reconfigure the two existing intersections and construct two mini roundabouts. The project will also construct a shared use path from Brookford Drive to Willow Glen Road and sidewalk along Spindler Road to Brookmont Drive. Additional work includes drainage improvements, and new lighting and signs.

### Project Purpose & Need:

- » Improve safety and operations at the intersections and connectivity along Roberts Road.

### 2020 Feasibility Study

- » Identified double mini roundabouts as the recommended improvement to address safety issues and minimize impacts.

### 2023 Safety Study

- » From 2020-2022:
  - » 11 left turn crashes, 6 resulted in injury
  - » 3 fixed object crashes, 1 resulted in injury
  - » 2 rear end crashes, 0 resulted in injury
  - » 1 right turn crash, 1 resulted in injury
- » Crash trends have remained consistent since.
- » Further examined double mini roundabout costs and additional improvements.

### Anticipated Impacts:

#### Drainage & Utilities

- » Drainage improvements.
- » Utility relocations needed.

### Anticipated Impacts (continued):

#### Environmental

- » Minor park property impacts anticipated. Coordination with City of Columbus Recreation and Parks is ongoing.

#### Right-of-way

- » Temporary and permanent right-of-way anticipated to be needed.

#### Maintenance of Traffic

- » Detoured closure expected. Will be determined and communicated prior to construction start.
