RE: Renner Road (Alton & Darby Creek Road Spindler Road) Improvement Project

Dear Neighbor:

The mission of the Franklin County Engineer's Office is to provide for the safe and efficient movement of people and goods from place to place by designing, building, and maintaining Franklin County's roads, bridges, and infrastructure for multiple modes of transportation. We are an agency of action, innovation, and collaboration.

As part of our commitment to providing safe and efficient travel throughout Franklin County, improvements to Renner Road (CR-27), between Alton & Darby Creek Road and Spindler Road will continue throughout the summer of 2025. Phase 2 of construction will begin on Monday, June 2, 2025, and will include a full closure of Renner Road. The posted detour route is enclosed. The upcoming phase of construction includes the full replacement of the Renner Road bridge over Clover Groff Run. The overall project includes pavement widening, a new bridge over Clover Groff Run, a shared-use path, sidewalk improvements, upgraded storm sewer system, traffic signal installation/modifications, and pedestrian crossing improvements.

Construction is being performed by J&J Schlaegel, Inc. Funding is being provided by Ohio Public Works Commission, the Franklin County Transportation Improvement District, private developers, and Franklin County Motor Vehicle Registration and Gas User Fees. Project completion is anticipated on October 31, 2025.

Thank you for your patience and understanding of our efforts to improve this roadway. If you have additional questions or concerns, please contact Kurt Selkinghaus, Project Inspector at 843-602-5878.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "W. Fritz Crosier", with a stylized flourish at the end.

W. Fritz Crosier, P.E.
